Practice Solving Algebra Equations - with Video Solutions

The origins of algebra can be traced to the ancient Babylonians, who developed a positional number system that greatly aided them in solving their rhetorical algebraic equations. The Babylonians were not interested in exact solutions, but rather approximations, and so they would commonly use linear interpolation to approximate intermediate values. One of the most famous tablets is the Plimpton ...

A car traveled 281 miles in 4 hours 41 minutes. What was the average speed of the car in miles per hour? Solution We first convert the time of 4 hours 41 minutes in minutes 4 hours 41 minutes = 4 × 60 + 41 = 281 minutes Average speed S is given by distance / time. Hence S = 281 miles / 281 minutes = 1 mile / minute = 60 miles / hour In a group of 120 people, 90 have an age of more 30 years ...
