Engineering Drawing Basic | Sheet layout , title Block , Notes Engineering Working Drawings Basics. Engineering graphics is an effective way of communicating technical ideas and it is an essential tool in engineering design where most of the design process is graphically based. Engineering graphics is used in the design process for visualization, communication, and documentation.

### Engineering Drawing Basic | Sheet layout , title Block , Notes

Drawing clips or pins are used to fix the drawing sheet on the drawing board at the required place. Frequent use of pins cause formation of impressions of pin pricks on the board, thus spoiling the surface of the board. The present trend is to go in for steel clips, if the size of the drawing paper is the same as that of the drawing board.
