Born In Africa The Quest

"Born in Africa" was more than just another run through the origins of humans. Other books I have read began with the earliest remains. This book takes the uncovering of this story in chronological order which in fact happens to be almost the reverse time scale with the earliest hominid evidence the most recent finds - a refreshing approach.

Born in Africa: The Quest for the Origins of Human Life ...

Born in Africa provides a decent high-level overview of the work that paleoanthropologists (a discipline that combines paleontology and physical anthropology) have done to uncover the evolutionary lineages of modern humans (homo sapiens). The book is divided into two parts with the first section detailing (in chronological order) the fossil discoveries by paleontologists and their evolving ...
