LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

BRS Neuroanatomy (Board Review Series): 9781451176094 ...
2.0 out of 5 stars Mediocre. Reviewed in the United States on March 29, 2020. Verified Purchase. I have used many of the BRS series books to study, but this one is certainly the worst of the bundle.

BRS Neuroanatomy (Board Review Series): 9781496396181 ...
Pages are very dense compared to other BRS books. Neuro is a dense subject, but this format did not work for me when trying to learn the material with no background. My least favorite out of the series.
