Changed Spark Plugs now misfire on all cylinders - Camaro5 Chevy Camaro Forum / Camaro ZL1 ...

I have a 2011 Chevy equinox and the engine is the loudest I've ever heard a vehicles engine to be. I'd get oil changes every two-three months and top offs in-between those because it burns off so much oil. Now I'm major engine issues with the vehicle and afraid I'm going to go into complete engine failure because of how much oil it burns.

\$42M GM Chevy Equinox Oil Guzzling Class Action Settlement Approved - Top Class Actions

When the chain starts to develop slack, rattling sounds at idle become one of the first symptoms. If the timing chain jumps a little, you may notice a misfire, poor operation, and power losses with engine fault codes. GM 2.4L Ecotec engines are prone to high oil consumption, often due to piston oil rings wear.
