Criminal Justice: A Brief Introduction, 13th Edition - Pearson

All modern humans are classified into the species *Homo sapiens*, coined by Carl Linnaeus in his 18th-century work *Systema Naturae*. The generic name "Homo" is a learned 18th-century derivation from Latin *homō*, which refers to humans of either sex. The word human can refer to all refer members of the *Homo* genus, although in common usage it generally just refers to *Homo sapiens*, the only extant ...

Newman and Carranza's Clinical Periodontology - 13th Edition

In biology, "kinship" typically refers to the degree of genetic relatedness or coefficient of relationship between individual members of a species (e.g. as in kin selection theory). It may also be used in this specific sense when applied to human relationships, in which case its meaning is closer to consanguinity or genealogy .
