The most frequently asked SoapUI interview questions and answers for your reference: It is always tricky to write an interview Q&A article because the list of questions that we provide is never going to be all-inclusive and also, interviews in real time aren't exactly in the Q&A format.

34 Most Common SoapUI Interview Questions and Answers
5. Map interface: A Map (java.util.Map) represents a key, value pair storage of elements. Map interface does not implement the Collection interface. It can only contain a unique key but can have duplicate elements. There are two interfaces which implement Map in java that are Map interface and Sorted Map.

In computing, a visual programming language (VPL) is any programming language that lets users create programs by manipulating program elements graphically rather than by specifying them textually. A VPL allows programming with visual expressions, spatial arrangements of text and graphic symbols, used either as elements of syntax or secondary notation.For example, many VPLs (known as dataflow ...
