Django's Admin System . The last thing we need to do today is review Django's administration system. This is a really powerful feature of Django that lets you manage your site without writing any more code, as you would have to if you were creating a site from scratch. To enable it, we need to change a few settings.

Linux is a great Operating System, but as with everything open source, you do have to factor in some time for fixing bugs and general system administration tasks. For example, upgrading my Dell Ubuntu laptop from 14.04 to 16.04 caused my audio and WiFi to stop working (had to do a clean install to get it working).
