Realistic Pzm Microphone Manual

The Radio Shack™ PZM™ Microphone
Many years ago, Radio Shack (RS) sold a Pressure Zone Microphone, models 33-1090, 33-1090A, 33-1090B under license from Crown International. These were an inexpensive alternative to the Crown product and worked OK.

Pressure Zone Microphones - History and other information

Page 1 “reach,” and consistent pickup anywhere around the microphone. In the PZM-11, low frequencies below the voice range are rolled off to reduce pickup of air-conditioning rumble. The high-frequency response is boosted slightly to aid clarity and articulation. Page 2 2, and darker lead to pin 3. 9.

The Realistic 'PZM' uses a permanently charged or 'electret' capsule which requires no polarising voltage, power only being needed for the operation of the mic's internal preamp. A single AA size 1.5V battery is normally used, although the user is offered the option of utilising a 12V supply, obtained from two small 6V batteries which fit into the same battery compartment.

Phantom Powering the Realistic PZM (HSR Jul 84)

The Realistic 'PZM' is now compatible with any balanced mic input. To use it with unbalanced equipment, it is necessary to use an XLR - jack adaptor which has a connection between Pin 3 ('return') and Pin 1 (ground), or better still use one of the XLR - jack adaptors which contains a built in mic transformer and so retains the benefits of balanced line operation.

Realistic PZM Modification (HSR Mar 84) - mu:zines

The Realistic PZM microphone was a favourite of many home studio users when it was launched in the 1980s. Selling at just £19.95 from any local UK Tandy Store (Radio Shack), which in the 80s was a part of many high streets alas this is no longer the case.

Throwback Thursday - Realistic PZM Microphone | Production ...

Radio Shack PZM Microphone modification The Radio Shack PZM microphone is a low-cost microphone capable of fairly high performance. Many modifications have been published for this microphone; the simplest simply replaces the battery with two 6-volt smoke alarm batteries. You can learn more about pressure zone and boundary microphones here.

I had a pair of those Radio Shack branded PZM mic's mounted inside a 9-foot Steinway grand piano that Johnny Johnson played while rehearsing for the film "Hail Hail Rock n Roll".

Remember these? ... Realistic PZM - Gearslutz

Many people do not realise that the PZM as supplied by RS is actually a balanced microphone. To convert it for connection to a balanced mixer input is as simple as removing the moulded 1/4" plug, and replacing it with a male XLR3.

HOW TO CONVERT A RADIO SHACK PZM

The realistic PZM though very affordable, sounds good and is such a mic premade for such purpose. I have used stereo pairs in a room that had nice acoustics and it really provided a nice overall image. It does not seem to be a very colored mic in terms of response.

Realistic 33-1090A PZM - User review - Gearslutz

Radio Shack, under the imprint Realistic, sells the Pressure Zone Microphone (PZM) at all their weird, little stores for \$59.95. I believe they are actually manufactured by Crown, as they own the name PZM. Don't bother looking for the higher priced Crown versions though, there's a lot you can do with these little buggers!
